# About Us

For over two decades, **Simepetro** has represented the lubricant producers and importers sector, with a special focus on supporting small and medium-sized enterprises.

The association's primary mission is to defend the sector's interests before the various government agencies that regulate the market, addressing a wide range of issues and topics. **In addition to its strong advocacy efforts, Simepetro plays a central role in promoting business and innovation, serving as the creator and organizer of Feilub and Lubescon, the largest lubricants and greases event in Latin America.**

# FEILUB & LUBESCON

FEILUB—the Business Fair—and LUBESCON—the International Lubricants and Greases Congress—together form the largest gathering of the sector in Latin America. Held concurrently, these events bring together experts, companies, and key industry leaders for two intensive days of technical content, strategic networking, and unique business opportunities.

It is the definitive platform for those seeking innovation and growth in the lubricants and greases market.

**Where technology and the market meet.**

## IV LUBRICANTS AND GREASES EXPO BUSINESS

FEILUB is the leading business and knowledge hub for the lubricants and greases sector in Latin America. More than just a trade show, it is a strategic platform that brings together the entire supply chain—manufacturers, raw material suppliers, distributors, and high-volume buyers—in an environment focused on generating qualified business opportunities. The event stands out as a showcase for cutting-edge innovations and technologies.

Participating in FEILUB is a strategic investment that strengthens brand leadership and drives growth, ensuring that the company actively shapes market trends and the future of the industry.

# **LUBESCON** **X INTERNATIONAL CONGRESS OF LUBRICANTS AND GREASES**

The International Lubricants and Greases Congress has established itself as the epicenter of technical and strategic knowledge in Latin America, bringing together national and international experts for an in-depth exploration of the subject matter.

Through high-level lectures and debates, the forum highlights innovations in formulation, regulatory challenges, and disruptive trends shaping the industry's future. It is the essential platform for those seeking technical updates and market intelligence to lead the energy transition and innovation in the sector.
